OBJECTIVE

I am seeking challenging opportunities where I can leverage my diverse skills to drive the success of the organization. With a strong work ethic and a sense of responsibility, I am committed to continuous personal and professional development. My goal is to make a meaningful impact through innovative solutions, effective collaboration, and dedicated service, thereby contributing to the organization's growth and excellence.

KEY ATTRIBUTES

I possess excellent listening skills, a quick learning ability, strong leadership qualities, and a highly active and energetic personality.

PROJECTS

E-RESOURCE MANAGEMENT

- Developed an E-Resource Management System for my college, designed to store and manage various educational resources. The system enables faculty members from different departments to securely log in and upload, update, and manage educational content, including PDFs, Word documents, PowerPoint presentations, web links, and YouTube videos.
- User Authentication:** Secure login for faculty members of different departments.
- Content Upload:** Support for uploading various types of educational resources (PDF, Word, PPT, web links, YouTube links).
- Content Management:** Easy updating and managing of uploaded resources.
- Departmental Segmentation:** Resources organized by department, ensuring easy access and management.
- User-Friendly Interface:** Intuitive and responsive design for ease of use.
- Frontend: HTML, CSS, JavaScript, Bootstrap, jQuery
- Backend: PHP
- Database: MySQL
- Additional Tools: Git for version control

BIKE SELLING BOND

- Developed a web-based platform for selling second-hand bikes, facilitating the exchange of detailed information between buyers and sellers. The platform allows users to browse available bikes, view seller details, and review the selling bond terms and conditions. Upon completion of a transaction, the system generates a PDF document containing the selling bond details, user information, seller details, bike specifications, and terms and conditions.
- Frontend:** HTML, CSS, JavaScript, Bootstrap
- Backend:** PHP
- Database:** MySQL

SKILLS

A motivated and dedicated fresh graduate with a strong foundation in web development technologies, including HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL. Eager to apply my skills and knowledge to contribute to innovative projects and grow as a web developer. Demonstrated ability to design and develop dynamic, user-friendly websites and applications through academic projects and hands-on experience.

- Web Development: HTML, CSS, JavaScript, Bootstrap
- Backend Development: PHP
- Database Management: MySQL
- Tools & Platforms: Git, GitHub
- Frame work : Basic knowledge about MVC and codeigniter
- Basic knowledge about : Python, C, C++
